THE PHYSICS OF METALS AND METALLOGRAPHY

The Physics of Metals and Metallography is being published in translation by the Pergamon Press for the Pergamon Institute, a non-profit-making foundation for the furtherance and dissemination of scientific knowledge, on behalf of the Board of Governors of Acta Metallurgica and with the financial support of the National Science Foundation and the United States Atomic Energy Commission.

By arrangement with the U.S.S.R. Academy of Sciences, "rush" copies and original illustrations on loan are being provided, thus enabling English editions of the highest possible technical standard to be published very shortly after the appearance of the Russian editions.

Under the same arrangements will be published The Abstracts Journal for Metallurgy, containing abstracts of the literature in the U.S.S.R., eastern Europe and Continental China.
